

AIHA Nursing Toolkit
Leadership Projects: Individual Projects of Class 2

Maya Simonyan
alina@erebun.arminco.com

PROJECT AIM/GOAL:

- Carry out post-basic educational program directed to Primary Health Care for nurses to improve the quality of care of the community

MEASUREMENTS:

- Knowledge and skills of nurses (tests)
- Community satisfaction (questionnaires)
- A number of disease cases

ACTION PLAN:

1. Build a team consisting of nurses and doctors to determine community needs and educational topics
2. Select instructors with the knowledge in Public and Community Health
3. Gain support from the National Institute of Health and Ministry of Health, Republic of Armenia
4. Carry out educational workshops on for nurses from different medical institutions

FIRST OUTCOMES:

1. The team has been built; learning materials - brochures, posters, videotapes and tests - have been translated from English and Russian.
2. Nurse-trainers - BSN program graduates have been selected
3. For the first time, the Scientific-methodical council of the National Institute of Health has authorised the program directed to Primary Care
4. 111 nurses have completed their program and received the NIH certificates. In addition to that, 205 nurses including students received some training offered by senior nurses, doctors, and professionals from both Armenia abroad
5. General public education was done in the Erebuni region and in 3 designated schools.

FURTHER STEPS:

1. Continuation of dealing with mass media
2. Regional seminars for nurses will be carried out like the one held in Sevan
3. Elderly and orphanages are to be taken care of
