## NRC User Survey Results Summary

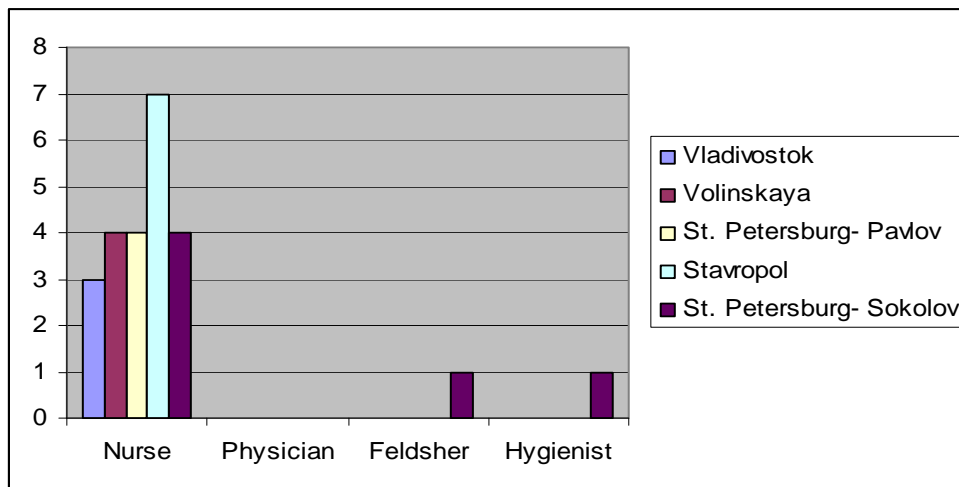

### Professionals Utilizing the NRC

In total, nurses made up 86% of those utilizing the NRCs. Very few physicians, feldshers and other health care providers utilize the NRC.

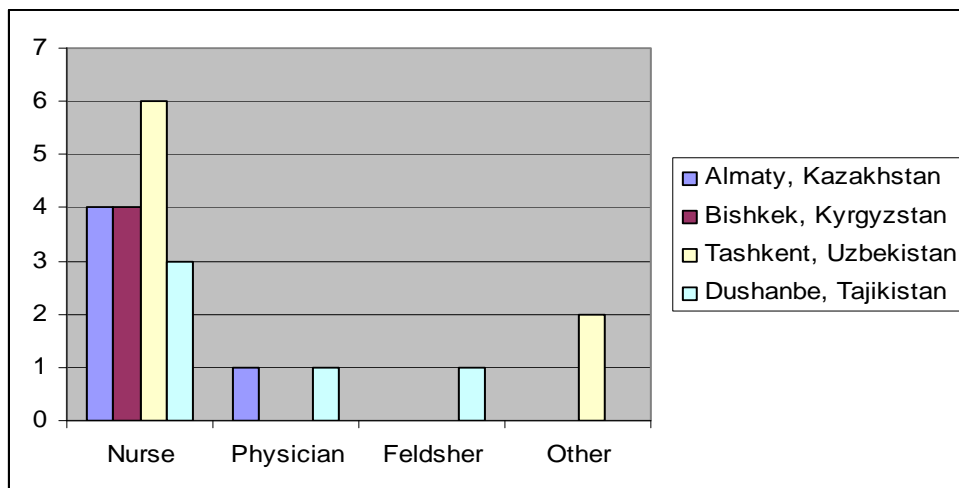

#### WEST NIS

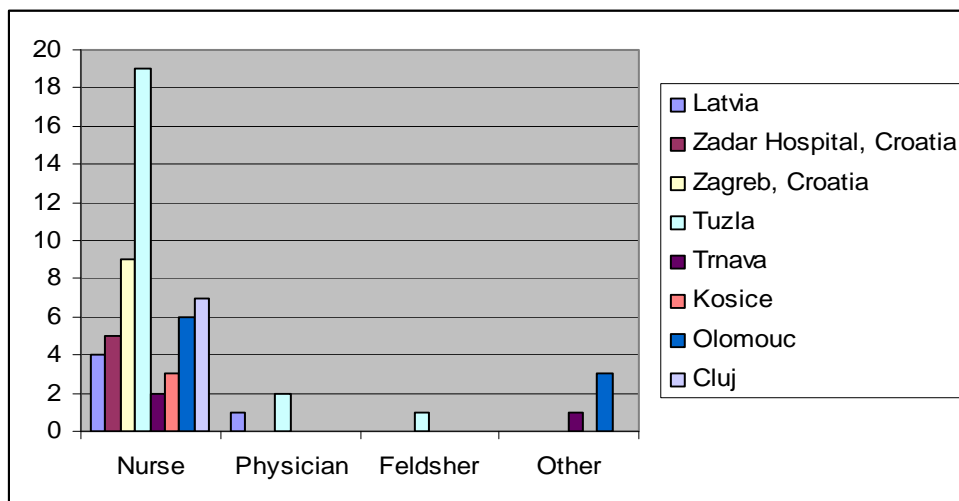

#### RUSSIA

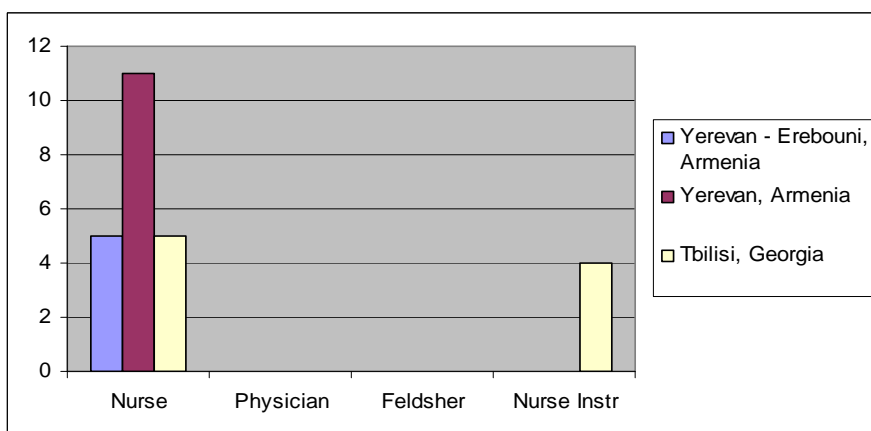

## CAR

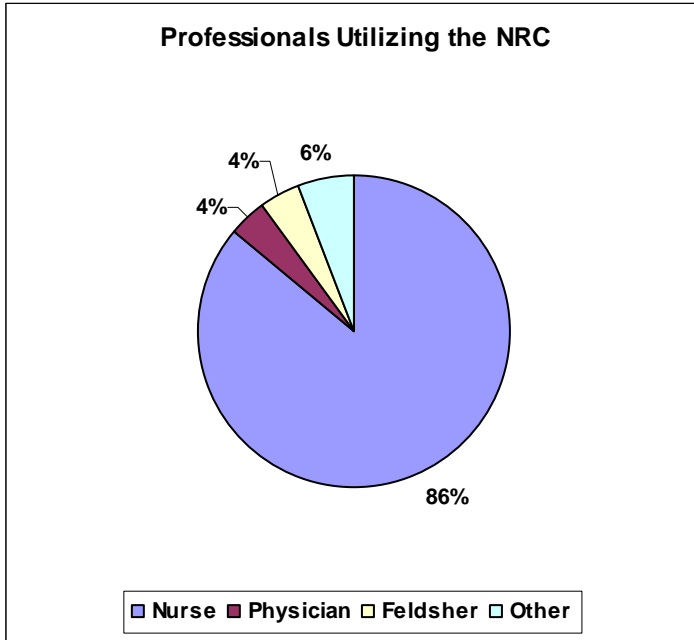

## CEE

## CAUCASUS

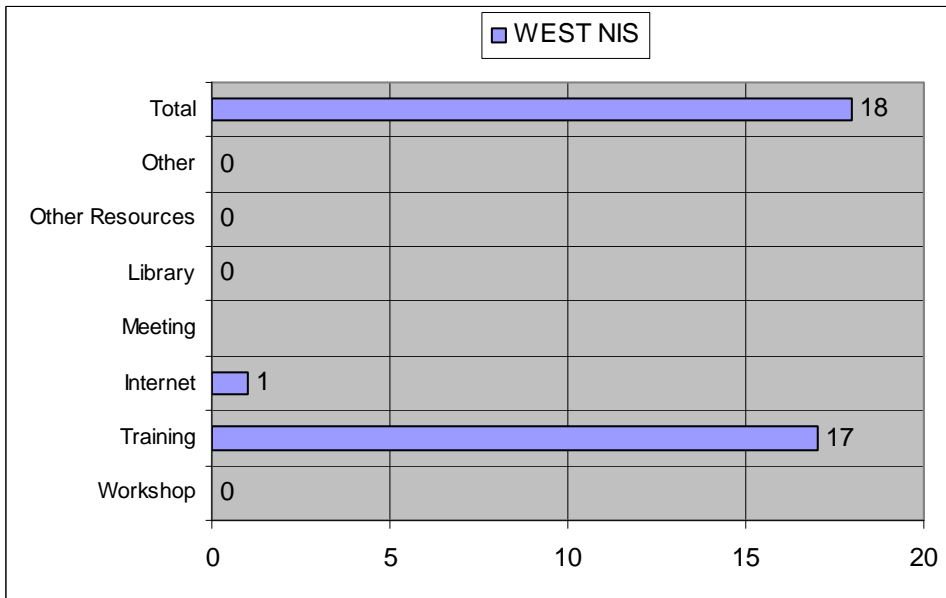

## Summary

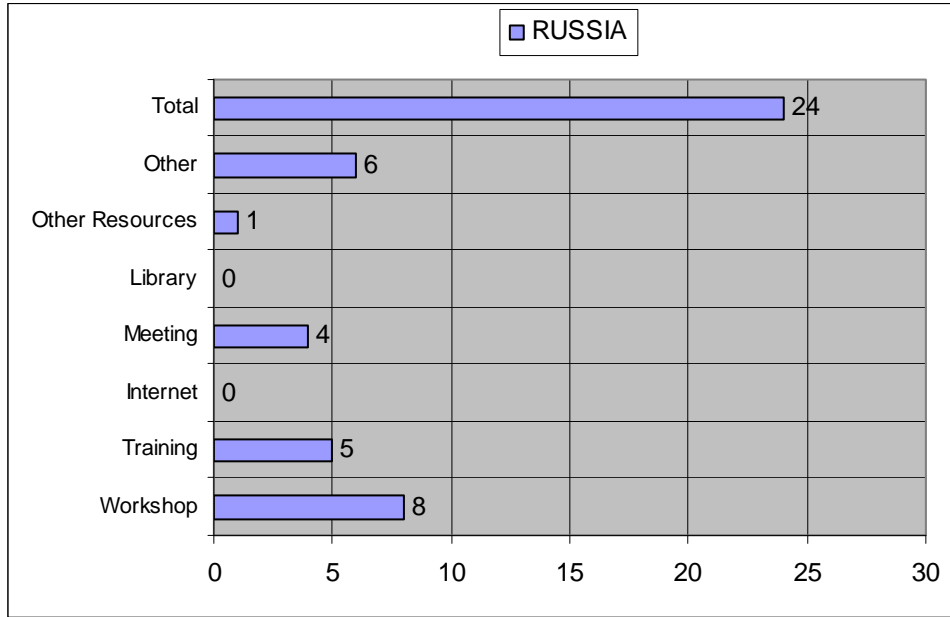

## Main Uses of the NRC by Region

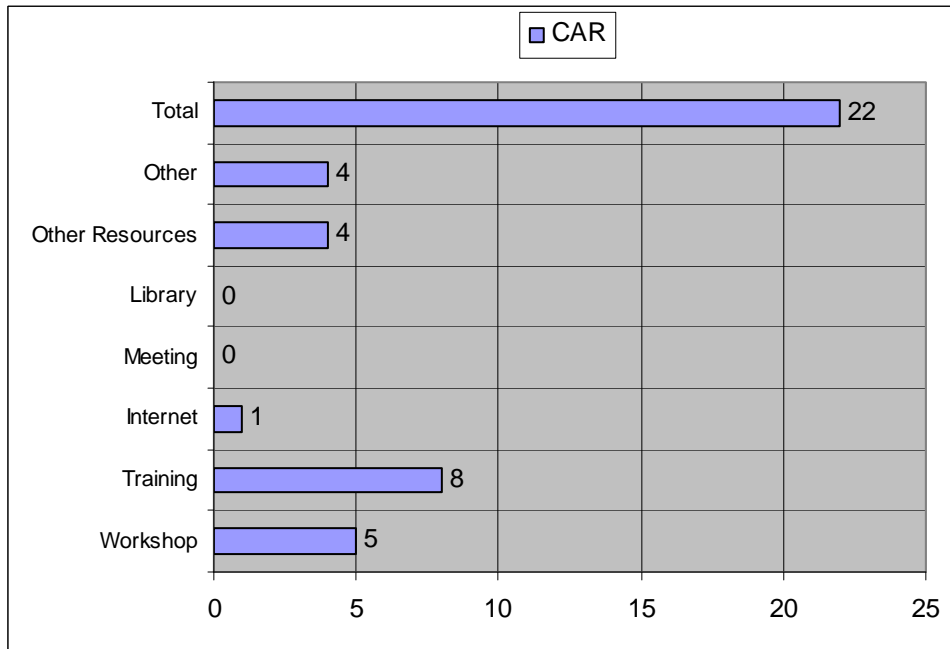

### WEST NIS

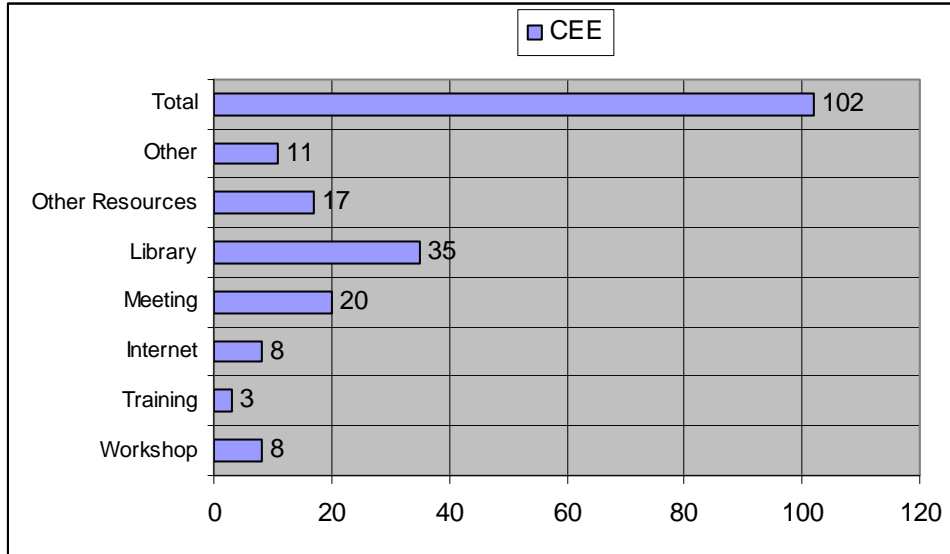

## RUSSIA

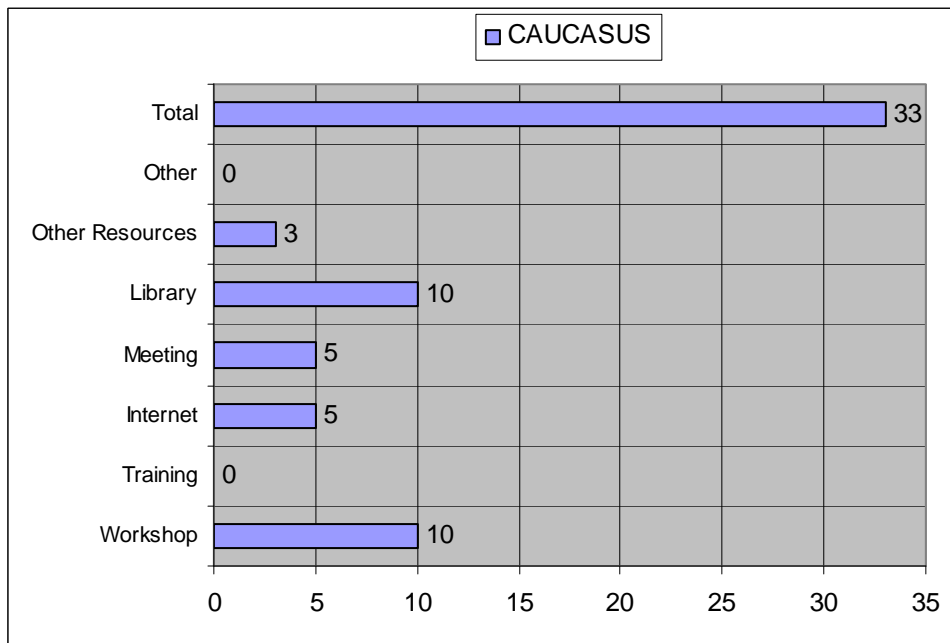

## CAR

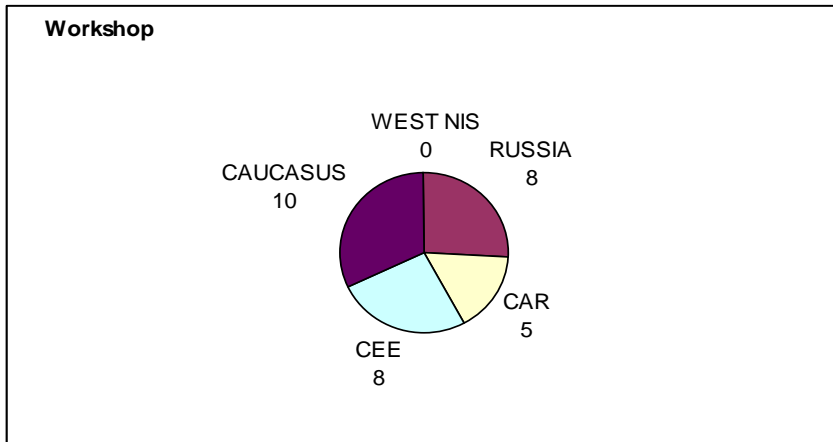

## CEE

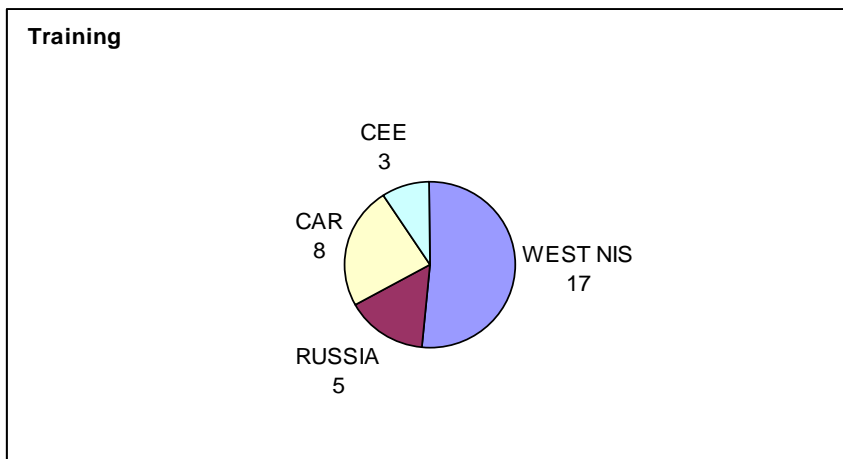

## CAUCASUS

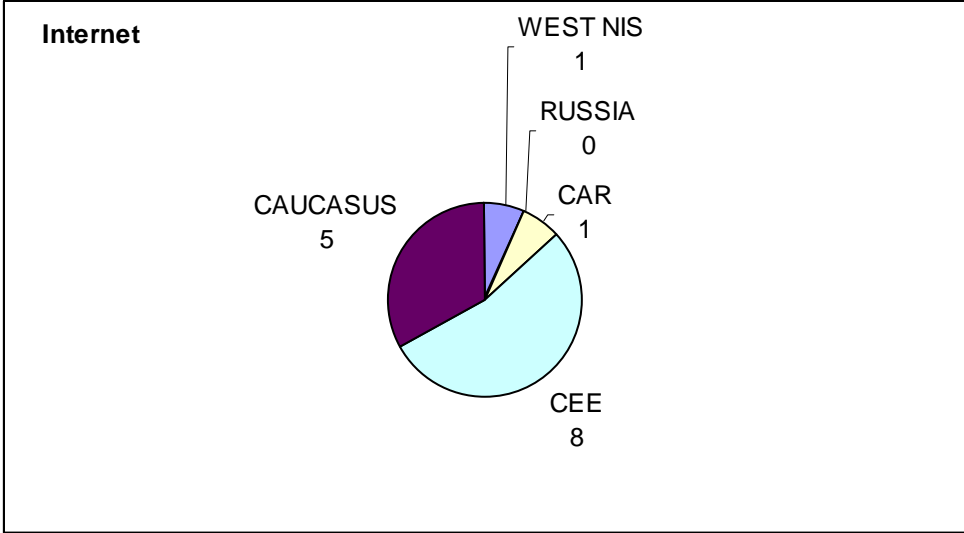

## Main Uses of the NRC by Function

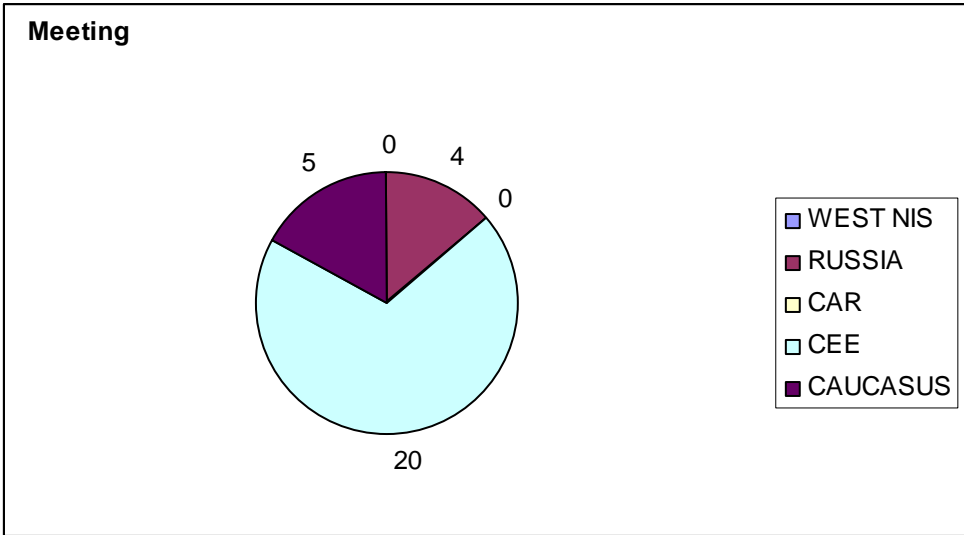

Caucasus, CAR, Russia, and CEE all use the NRC for workshops about equally. In comparison, those surveyed in WEST NIS reported not using the NRC to hold workshops.

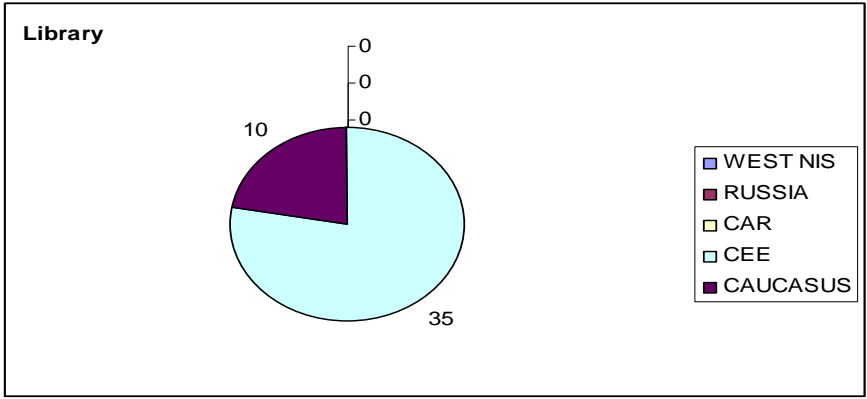

According to the results, WEST NIS uses the NRC in order to hold training more than other NRCs.

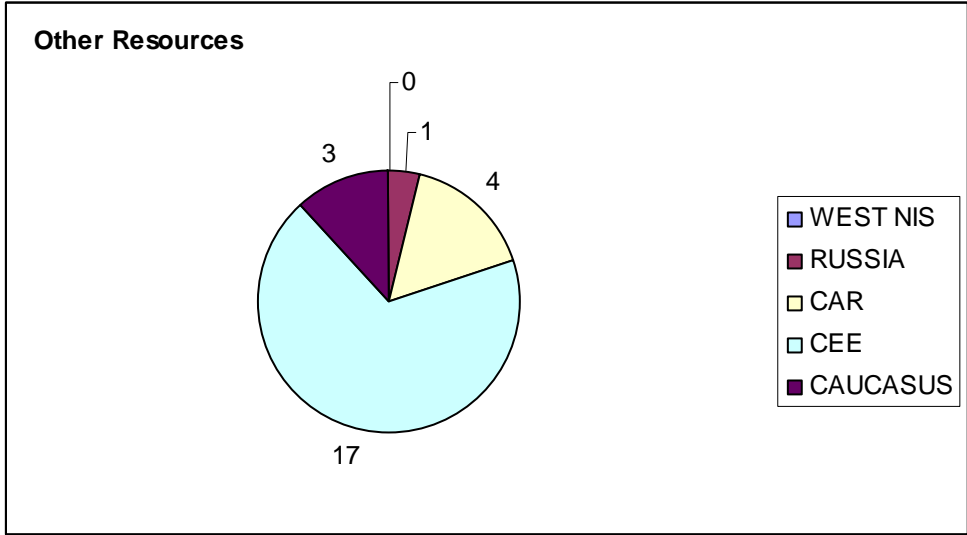

CEE and the Caucasus use the internet at the NRC more than those in WEST NIS, Russia and CAR NRCs.

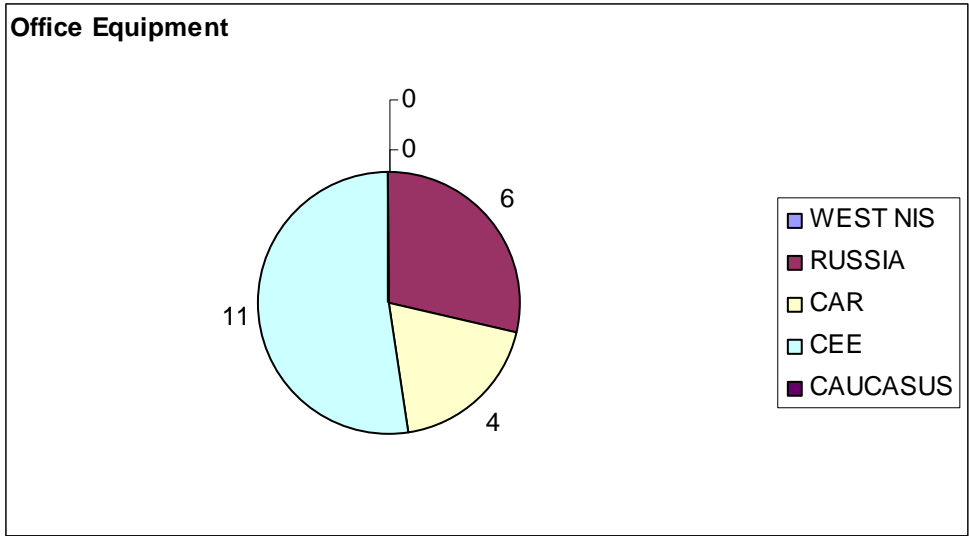

CEE uses the NRC space largely to conduct meetings.

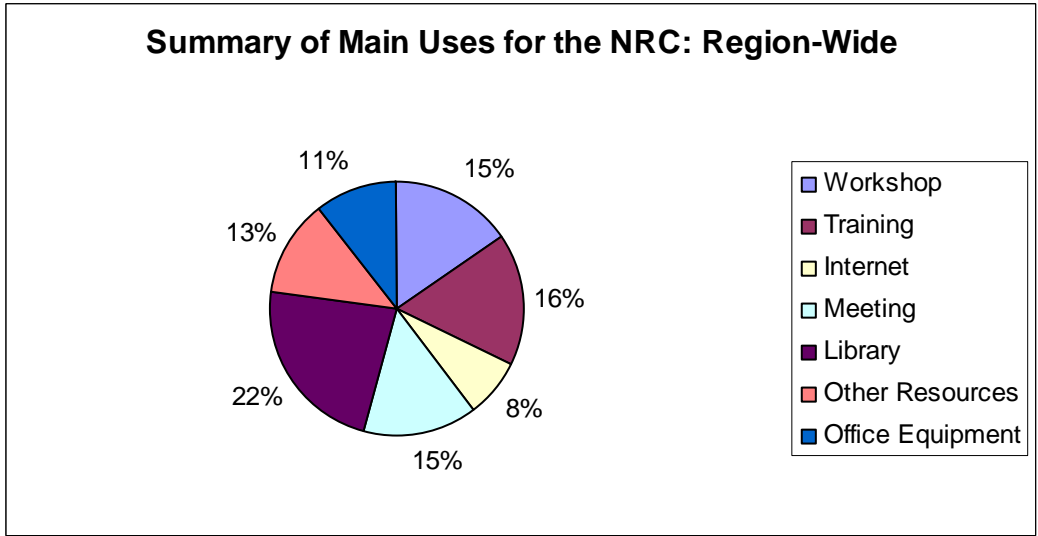

Those utilizing the NRC in CEE utilize the library to a large extent compared to those in other regions. Most likely this is due to the fact that those in the CEE NRCs can use the English materials while those in Russian speaking areas have a more difficult time making use of the materials.

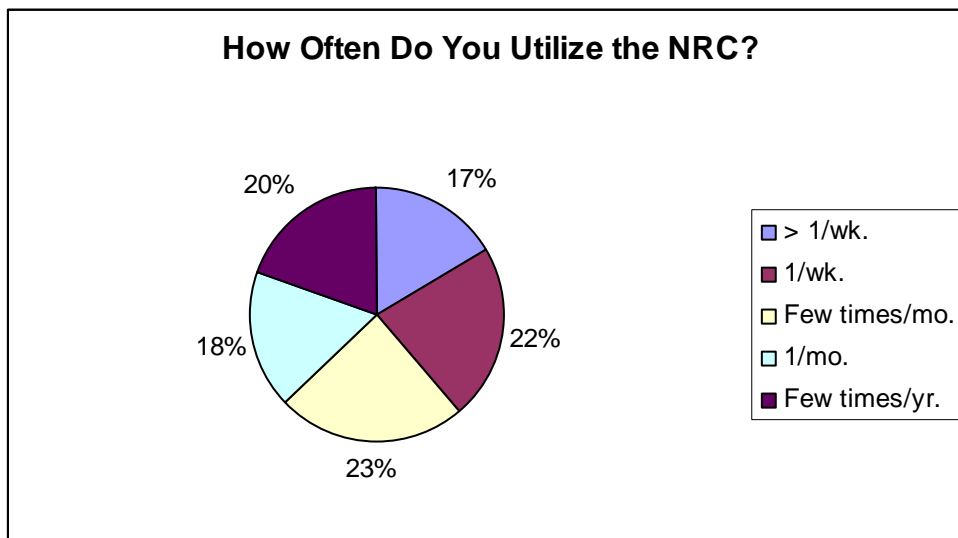

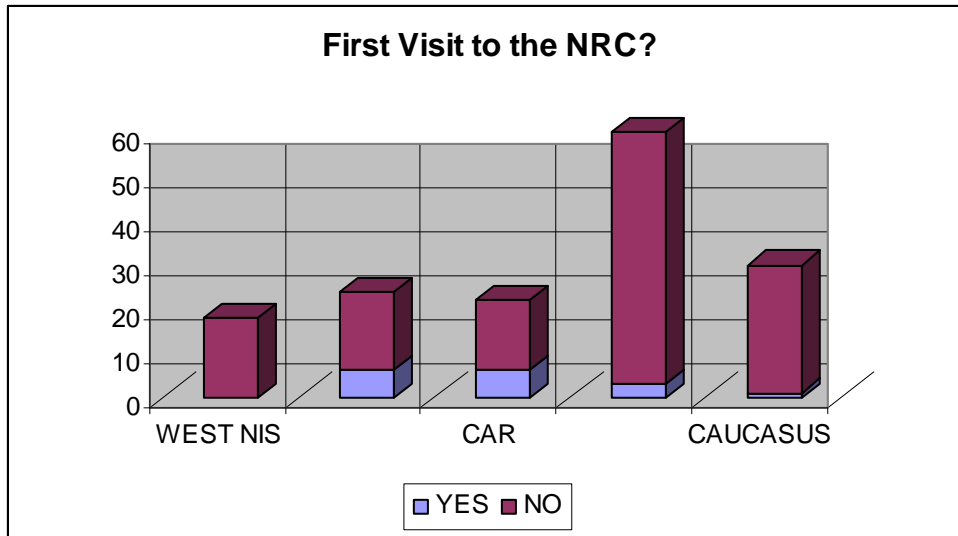

Nurses in CEE also use more “other resources” (non-library materials such as anatomical models) at their NRCs and “other” which include such items like the slide projector and photo copy machine, at their NRCs compared to nurses in other regions.

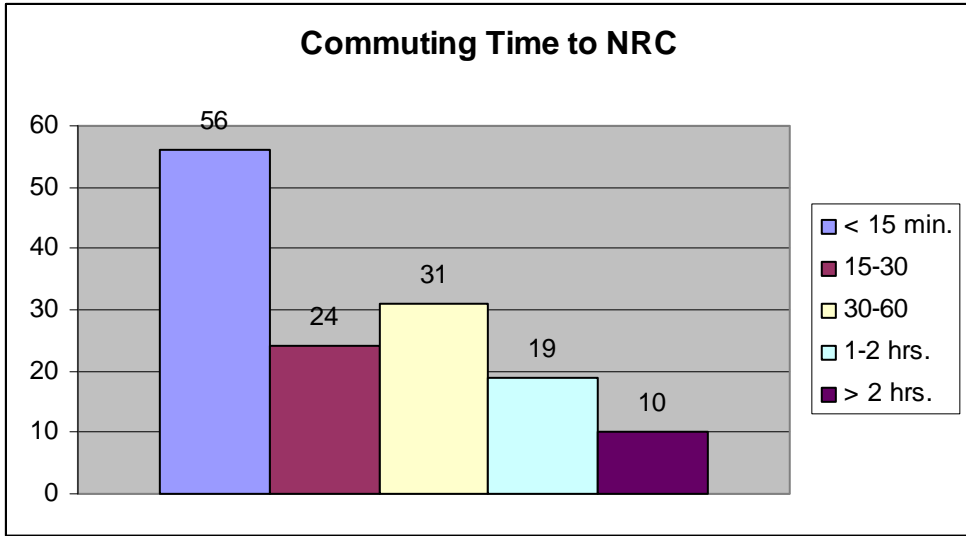

From those surveyed, the library was close to 25% of the reason for the health care providers’ visit to the NRC. Five other main reasons for visiting the NRC included; workshop, training, meeting, other resources, and other all of which were between 11% and 16%. The internet was 8% of the reason for the health care provider’s visit to the NRC that day. Overall, the NRC is being utilized for all seven areas about equally.

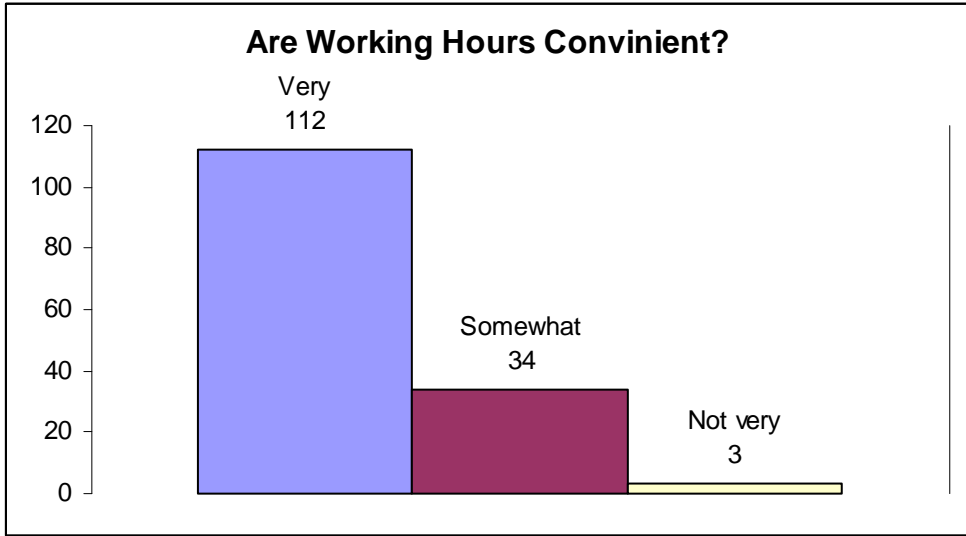

### Frequency of Visit to the NRCs

Most of those surveyed had visited the NRC before. Of those surveyed 39% utilize the NRC more than once a week or once a week, 41% utilize it a few times a month or once a month and 20% utilize a few times a year.

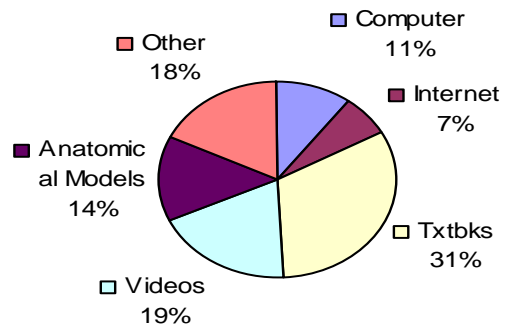

Of the 140 responses, 56 nurses (40%) took less than 15 minutes to commute to the NRC. About 17% took between 15-30 minutes while about 22% took between 30-60 minutes to reach the NRC from their home.

Of the 149 responses received, more than 75% stated that the NRC working hours are convenient.

### Equipment/Materials Used Most

According to the survey results, the equipment and materials used at the NRCs most across the regions are, from most frequently used to least:

1. Textbooks 31%
2. Videos 19%
3. Other 18%
4. Anatomical Models 14%
5. Computer 11%
6. Internet 7%
